## It's time to go Paperless!

Readiris™ Pro 17 is the complete PDF and OCR solution to make best use of your scanners or files and transform all your paper documents into digital files. Create and edit your PDFs, convert and modify all your paper documents with just a few clicks.

The perfect match for private users and self-employed workers. IRIS' worldreknowned OCR software will make you save the precious time you would lose retyping information from documents! Readiris™ Pro 17 automatically recognizes the text and layout from an image, a PDF or a scanned document and turns it into an editable digital file (Word, Excel, PDF, HTML, TXT, ePub, ...).

Take the maximum benefit of your scanners or files, add the power of Readiris Pro 17 software.

- PDF Annotations: collaborate on your PDFs thanks to a full range of annotations.
- · Convert scans, images and PDF files into editable documents
- · Create, edit and merge multipage PDF files
- Compress searchable PDF files up to 10 times for optimized archiving and sharing
- · Access your smart documents from any computer, smartphone or tablet
- · 20 % faster than previous version.

Quick reference guide

#### The all-inclusive PDF & OCR solution!

Readiris™ Corporate 17 is the business-centric version of IRIS' flagship OCR software. It was made to help SMBs and larger companies process information contained in paper and digital documents efficiently in order to share them within their organization and network.

Readiris corporate 17 also brings a complete approach to creating, modifying and signing PDFs in an easy way.

Take the maximum benefit of your scanners or files by adding the power of Readiris Corporate 17 software.

- · Optimized interface to ease your document processing.
- Document processing and opening 20% faster then previous versions. Gain productivity by optimizing your precious time focusing on your core business.
- PDF Annotations: collaborate on your PDFs thanks to a full range of annotations.
- Convert batches of documents, images or PDF files into editable documents including searchable PDFs
- · Automate your recognition process thanks to watched folders
- · Compress searchable PDF files up to 50 times for optimized archiving and sharing
- Create, edit and merge multipage PDF files
- Sign and secure your PDF files with passwords
- Back-up your documents in the Cloud including in professional applications such as SharePoint and Therefore
- · Sort your files using document separation tools and barcodes
- · Access your smart documents from any computer, smartphone or tablet

Quick reference guide	
Product name	Readiris™ Corporate 17
SKU - 1 licence	459402
SKU - SMB - 5 licences	459403
Interface languages	English, Spanish, French, Russian, Simplified Chinese, Traditional Chinese, Korean, Japanese, Italian, Polish, Dutch, German, Arabic, Danish, Finnish, Hungarian, Norwegian, Portuguese PT, Portuguese BR, Romanian, Swedish, Ukrainian, Bulgarian, Catalan, Czech, Greek, Hebrew, Turkish.
Supported OCR languages	138 (complete list at www.irislink.com)

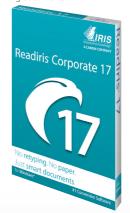

#### The Ultimate PDF toolbox - Review and collaborate on your PDFs

- Annotations Comment your PDF with Strike out, underline, text box, watermark, attached file, voice record and text to speech annotations.
- · Create searchable PDFs with a text layer ready to be searched
- Edit PDF files Correct text directly into Readiris™ before the conversion process.
- Organize your PDFs Add, delete, position, merge, & straighten PDF pages
- Compress your documents for optimized archiving Use IRIS' patented hypercompression technology (iHQC™) to create PDF files up to 50 times smaller than their original size.
- Sign your PDF files digitally The PDF documents you generate with Readiris™ can be signed digitally. A digital signature identifies the person who created the PDF document; it authenticates the identity of the author, certifies a document and helps prevent unwanted changes to the PDF document.
- Extended support of PDF formats Readiris™ Corporate 17 features an extended set of PDF creation tools including the support of PDF/A, Text-PDF, Text-image and PDF iHQC™ Level 2 & 3 for even lighter files.

#### Access to a next level of document processing

- Process batches of documents and reduce document processing times by splitting tasks over a multi-core workflow
- Sort your files using document separation tools and barcodes Add a separator like
  a blank page or a barcode between each document to tell the OCR software to create
  different output files from a single batch of documents.
- Use watched folders to automate your workflow Readiris™ Corporate 17 can monitor specific folders on a local drive, network or FTP server and automatically process any document placed in this specific location.
- Connect to SharePoint, Therefore or FTP Process documents directly into a network folder using an FTP connection or export them to the company's intranet DMS such as SharePoint® or Therefore™ using Readiris™ 17 built-in DMS connectors.
- Index your documents If you are using a document management system that
  handles index fields, you can either use Readiris™ Corporate 17 to fill them out using
  "Drag and drop OCR"
- Scan with MFPs and professional scanners For small and medium businesses using multi-sheet feed scanners, MFPs or professional scanners, Readiris™ Corporate 17 is a first-class solution to handle the processing of incoming documents.

- 1 GHz processor or more (multi-core processorrecommended)
- Microsoft® Windows® 10, 8, 7(32 or 64 bit)
- 1GB RAM (2GB recommended)
- 400MB of available hard disk space
- Internet connection for software download and activation

# Cardiris<sup>®</sup> Corporate 5 for CRM

# Scan your business cards. Recognize and manage your contacts.

Cardiris™ Corporate 5 quickly scans your business cards, captures the information they contain and instantaneously creates electronic contacts to be sent to your favorite contact manager (Outlook®, ACT®, Lotus Notes®, etc.) or synchronized straight to the cloud with Microsoft Dynamics® CRM, Salesforce™ and Google™ contacts.

- · Automatically extracts data from scanned business cards.
- Advanced synchronization with Microsoft Dynamics® CRM 3, 4, CRM Online (Cloud), Salesforce™ and Google™ contacts.
- · On-the-fly OCR drag and drop text on selected fields.
- · Advanced image processing.
- Assign contacts to existing accounts or create new leads accounts.
- · Double sided business cards recognition.
- · Customizable fields and categories.
- · Create new business cards from selected text.
- · Contact management software.
- Powerful duplicates management tool.
- · Advanced export functions.
- · Easy export to Excel®.
- 19 installation and user interface languages.
- 218 countries recognized.

Quick reference guide	
Product name	Cardiris™ Corporate 5 for CRM
SKU	458831
Custom code	85234045
DVD Box size (H x L x D)	18,9 x 13,5 x 1,4 cm (7,44 x 5,31 x 0,55 in)
DVD Box weight	Around 170g (0,37 lbs)
DVD Box language	English
Countries recognized	218 (complete list at www.irislink.com)
Installation and user interface languages	19 (Chinese (simplified & traditional), Czech, Dutch, English, French, German, Hungarian, Italian, Japanese, Korean, Polish, Portuguese (Brazil), Portuguese (Portu- gal), Romanian, Russian, Spanish, Turkish, Ukrainian).

Automatically extracts data from scanned business cards

Cardiris™ takes care of the retyping job for you!

Advanced synchronization with Microsoft Dynamics® CRM
 Specific field mapping for integration with Microsoft Dynamics® CRM 3, 4, CRM
 Online (Cloud), Salesforce™ and Google™ contacts.

Advanced image processing

Improve recognition by adjusting brightness, contrast, despeckling and check the improvements in real time. Let Cardiris™ do the job for you, or adjust the scanned images manually.

· Customizable fields and categories

Add searchable, customizable fields and categories to your contact's data and export them in csv, xml, html, Excel® and Outlook®.

· Contact management software

Use Cardiris™ 5 as your major contact manager or choose to export the retrieved data into your favorite contact manager (Outlook®, ACT!®, etc.).

· Powerful duplicates management tool

Keep your business contats up to date! Ask Cardiris™ to automatically compare all your business cards, and determine what info/contact you want to save, update or discard.

Easy export to Excel®

Use all the retriened information from your business cards in Excel®. Search and sorts your contacts. Organize emailings and mail merges.

The installation and user interface are localized in 19 different languages.

#### Minimum requirements

- Intel® Pentium® based PC or equivalent recommended
- Microsoft® Windows® 7, Vista® or XP
- 256MB RAM recommended
- 250MB of available hard disk space
- CD-ROM drive

## Be Smart. Organize your Files!

Ideal for freelancers, microbusinesses and SME, IRISmart™ File will help you carry out long, slow everyday administrative tasks quicker than ever before. Anyone who wants to file a large amount of paper or electronic files into ordered folders quickly and efficiently will find this intelligent software to be a major ally. Whether you manage contracts, bids, medical certificates, minutes, legal reports or architectural plans − all of your documents are sorted semi-automatically on a hyper-structured, consistent basis, ready to be shared easily and retrieved quickly!

With IRISmart File, you can forget about stacks of disorganised documents, files recorded inconsistently, time wasted searching for specific contents or explaining to colleagues how to find a document in the archives, ... and go straight to optimised organisation of your documents and folders!

Create specific folder tree structures, dedicated to each supplier, client, entity, or project... that you or your colleagues need to track.

These predefined folders will contain your different batches of compressed and renamed documents – information which can be retrieved from anywhere at any time.

IRISmart File will simplify life for you and your employees once and for all!

Quick reference guide	
Product name	IRISmart™ File
SKU - ESD	459046
Interface languages	English, Spanish, French, Japanese, Italian, Dutch, German, Hungarian, Czech

#### Efficiently manage the lifecycle of your files

#### Forget your everyday administrative hassles

- · Save time & sort out multiple stacks of documents quickly (contracts, letters,...)
- Classify easily piles of documents into the right folders, locally or in the Cloud
- · OCR on the fly for fast content capturing & efficient document/folder naming
- Store documents in predefined folders, thanks to automatic folder tree creation
- Export to MS Sharepoint, Box, Dropbox, Evernote, Google Drive OneDrive-Impressive ability to process multiple batches of documents in parallel
- · Optimal previews of your files: thumbnails that you can move, split and delete...
- Import your documents into the software instantly with a simple Drag & Drop
- · Compatible with any TWAIN scanner or MFP's
- Your documents are converted into PDF format 20 x smaller ! Name and file up to 500 pages per day!
- File all of your documents, whether they are electronic (PDF, JPEG, PNG, etc.) or paper!
- · Create indexed PDFs automatically. Crop, fill, adjust, etc. For perfect rendering.
- · All-in-one software solution ready to use without training/customization needed

#### IRISmart File comes with 2 modules

- 1. Rename on the fly (manual file & folder naming)
- 2. Automatic filing (predefined file naming & folder structure)

#### Minimum computer requirements

#### For Windows®

- 1 GHz processor or more (multi-core processorrecommended)
- Microsoft® Windows® 10, 8, 7
- 1GB RAM (2GB recommended)
- 1GB of available hard disk space
- Internet connection for software download and activation

## Be Smart. Just classify!

Ideal for freelancers as well as any manager or accountant: IRISmart Invoice will help you to manage your daily invoices in a superefficient and organised manner.

Any manager who wants to quickly and consistently file their invoices into ordered folders and would like to monitor their expenses more closely will find IRISmart Invoice to be a major ally.

It will be a valuable aid for financial or accounting managers in charge of managing expenses. They will gain a direct, summary view into all of their incoming invoices, which are then classified, commented on, categorized, and even pre-posted!

In addition to easy, semi-automatic sorting of your invoices, IRISmart Invoice enables you to keep a summary view of all of your expenses.

The software generates a single Excel file, automatically listing all of the key data extracted from your invoices (supplier, date, amount VAT...). This file centralises the essential information so that you can monitor your expenses. This is a valuable feature for any manager, accountant or other financial manager. This file (with a hyperlink to each invoice document) can also be sent or shared with your fiduciary or financial manager so they can approve payments.

Quick reference guide	
Product name	IRISmart™ Invoice
SKU - ESD - 500 invoices	459045
SKU - ESD - 1000 invoices	459050
SKU - ESD - 3000 invoices	459051
Interface languages	English, Spanish, French, Japanese, Italian, Dutch, German, Hungarian, Czech

#### Refill system

IRISmart Invoice has a reservoir that holds a certain amount of invoices per year. This reservoir contains 500, 1,000 or 3,000 invoices depending on the version. One invoice is a paper or electronic document with one or more pages.

Processing one invoice decrements the IRISmart Invoice counter by one unit. When the reservoir is close to empty, a message prompts you to reload your counter. Refills (tanks) of 500, 1000, or 3000 invoices per year are available.

#### Intelligent classification of all your invoices

- Easily sort out, manage & share all your expenses with your accountant/fiduciary
- · Classify easily piles of documents into the right folders, locally or in the Cloud
- OCR on the fly for fast content capturing, field filling, invoice metadata correction & efficient file/folder naming. Name and file up to 200 invoices per day!
- · Import and rearrange the pages of your invoices based on your needs
- 12 invoice metadata fields & 1 free comment field, all centralized automatically in one Ms Excel - for easy expenses analytics & sharing (with document hyperlink)
- File multiple batches of invoices and control your expenses.
- File all of your invoices, whether they are electronic (PDF, JPEG, PNG, etc.) or printed.
- Export to MS Sharepoint, Box, Dropbox, Evernote, Google Drive o OneDrive-Impressive ability to process multiple batches of documents in parallel
- Compatible with any TWAIN scanner or MFP's
- · Create indexed PDFs automatically.
- · Crop, fill, adjust, etc. For perfect rendering.
- · All-in-one software solution ready to use without training/customization needed

#### IRISmart Invoice (500 invoices yearly - refill possible) comes up with 2 modules:

- 1. Invoice Supplier (automatic sorting in folders based on vendor's name)
- 2. Invoice Date (automatic sorting in folders based on document's date

#### Minimum computer requirements

#### For Windows®

- 1 GHz processor or more (multi-core processorrecommended)
- Microsoft® Windows® 10, 8, 7
- 1GB RAM (2GB recommended)
- 1GB of available hard disk space
- Internet connection for software download and activation

## Capture ID card and passport data in just a few clicks!

IRISmart™ Security software recognises machine-readable zones (MRZ) and extracts the sensitive data they contain. An MRZ is placed on many official documents\* to guarantee the identification and validity: ID cards, passports, driving licences, residence permits, etc. Personal data is captured by this powerful software, facilitating your client registration procedure. With IRISmart™ Security, forget about manual encoding; avoid errors and save time!

#### The ultimate two-in-one thanks to IRIScan™ Desk 5 Security

The innovative IRIScan™ Desk 5 Security camera scanner quickly scans passports and ID cards. It extracts the key data from official documents thanks to its MRZ (machine-readable zone) recognition module. It lets you set up a reliable authentication system in your organisation. Combined with IRISmart™ Security software, you will never again need to encode sensitive data manually. And with its compact design, it is ideal for reception desks!

#### Main advantages

#### IRISmart<sup>™</sup> Security

## - ID Module and Passport

This module lets you extract the essential information from official documents (ID cards, passports, driving licences, etc.): "Document type;" "Last name;" "First name", "Date of birth", and finally "Document number." During export, a folder is created, containing an Excel file that includes this data as well as the scanned images.

#### - Advanced ID and Passport module

This more advanced module can extract more data. Additional fields are recognised: "Issuing country code", "Expiry date", and "Nationality". A daily folder is created during export, including an Excel file that compiles the data and the images of the scanned documents.

#### IRISmart<sup>™</sup> Desk 5 Security

- Wonderfully portable design: light and with a flexible arm, this scanner is ideal for reception desks or your desk.
- Powered by USB and "plug and play", it needs no mains power.
- One-click scanning: the scanning process takes just a few seconds.
- Automatic document detection: simply place the document on the scanning mat.
   It will be automatically detected and cropped.
- Ideal for scanning several ID cards and passports at the same time.
- Scanning business cards: scan both sides of a business card and merge them. Scan several cards at a time.

#### Advanced image processing

- Automatic cropping and straightening
- Automatic edge filling for damaged documents

#### Video recordino

- Barcode: handles 1D and 2D barcodes, exporting the results to an Excel or text file.
- Book scanning: scan books in the blink of an eye and export them to Epub or PDF format to read them directly on your reader.

Quick Reference Guide

# IRISPowerscan\* 10

# The most powerful, easy-to-use production scanning and OCR solution supporting most popular high-speed scanners!

Boost your production scanner! Scan large quantities of documents at high speed, classify them by document type and transform them into compressed, indexed files that can be modified and are easy to share, archive and retrieve.

#### Main benefits of IRISPowerscan™

- · No page limitation.
- A modular solution capable of fast scanning and processing of very large volumes of documents, up to 10,000 documents per computer per day.
- Wide range of document output formats available simultaneously (PDF, Word, etc.) including PDF/A-1b, ideal for long term archiving.
- Hyper-compression: compresses your documents up to 50 times with the same legibility! Facilitates document sharing and storage.
- Fast and accurate classification of documents.
- Advanced document type identification based on layout recognition (no separators or barcodes needed)
- · Indexing of strategic data (text, numbers, barcodes, etc.)
- Easy export to document management systems and business applications (Microsoft® SharePoint®, Therefore™, FTP, etc.).
- Develop a connector to your own document management application thanks to an easy-to-use .NET wrapper.
- Easy information retrieval: indexing of your documents allows you to easily find what you need using keywords or sections of text content.
- · Easy to install and to use.
- · Interfaces with all types of scanner.
- Database lookup: compare and/or match captured indexes with pre-existing databases

Quick reference guide	
Product name	IRISPowerscan™
SKU	456763 (25ppm)
EAN code	7650104567638 (25ppm)
Custom code	847190
Packaging size	DVD Box
Packaging weight	150 gr
Packaging languages	English
DVD Box content	IRISPowerscan™ software for PC on CD-ROM • Software protection dongle • Maintenance sheet • Registration card

- Supports all high speed scanners no volume limitation
- Optimizes image quality
- Classifies your documents per kind of documents (invoices, order forms, delivery bills, etc.) based on pre-defined criteria (document layout, content location, blank page separations, barcode placed in your batches before scanning)...
- Names and indexes your documents using a large range of information (numeric sequence, user name, barcodes, etc.). Indexes are attached to your documents to easily retrieve them later from your electronic document management system.
- Creates all types of electronic documents: editable formats (Word, Excel, PDF, etc.) or non editable formats like images (JPEG, TIFF, etc.) and documents adapted for archiving (PDF, XPS) or for long term archiving (PDF/A-1b). Creates simultaneously up to 11 documents in different formats!
- · Highly compresses color or black and white PDF or XPS documents (add-on) up to 50 times while keeping a high quality image as well as the text layer. Documents storage and sharing are much more easier.

Powerful text recognition: recognizes 137 languages!

• Exports to external applications: documents and their associated indexes can be exported to various destinations. They can be sent via e-mail attachment or a FTP file, put in a folder or a shared folder for a group of users , a document management system like Microsoft® SharePoint® (add-on) or Therefore™ (add-on). Via custom connectors, you can also send documents to a database, a business application (accounts and financial control, HR, etc.), or an ERP system.

#### Add-ons

- IRIS high compression with iHQC™ (Intelligent High Quality Compression) to hyper-compress PDF and XPS files up to 50 times.
- Microsoft® SharePoint® connector to export documents and indexes into Microsoft® Sharepoint\*, directly in the right libraries.

  Therefore™ connector to export documents and indexes into Therefore™, directly in the right
- cathegories.
- FileNet® connector to export documents and indexes into IBM® FileNet® Content Manager.
- IRISFingerprint™ to easy and quickly identifies documents on the basis of their layout. Multi-user centralized configuration management to connect several IRISPowerscan<sup>™</sup> together
- in a network
- · ISIS Driver to pilot scanners equipped with ISIS driver.
- Background Processing to process documents and scan in the same time.
- · Legal Scanning to complie with Belgian legal scanning law (guarantees that the scanned image has not been modified after scanning)
- Arabic OCR to recognize Arabic and Farsi.
- · Asian OCR to recognize Japanese, Traditional Chinese, Simplified Chinese and Korean.
- Hebrew OCR to recognize Hebrew.

- Intel® Pentium® or equivalent. Intel® Pentium® IV 2GHz or equivalent is recommended
- 512 MB RAM. 1 GB RAM is recommended
- 400 MB free disk space for the software, plus the space necessary for the image files
- Operating system: Windows® 7, Vista®, XP, 2000, Server® 2008 and 2003

# **Enterprise Site License Program**

There are new challenges for large organizations in a corporate world that requires information to be input, processed and retrieved quickly and easily.

The IRIS Enterprise Site License Program is the perfect answer to those needs and more, thanks to straightforward document management solutions that will also increase the productivity and knowledge of those companies through better management of their documents and data, for fast and strong return on investment.

The many possibilities offered by the IRIS Enterprise Site License Program will adapt to your specific requirements and grant you with state-of-the art technologies, support and services based on an extensive experience with many key accounts and major business actors in every field and all over the world.

Document management is the smart choice for the future.

Take your company to the next level, with the IRIS Enterprise Site License Program.

#### Benefits for your Company:

Using IRIS solutions will improve your document management and give you a competitive edge while helping you achieve your business objectives:

- Optimize the productivity and satisfaction of your teams
  - Gain time when searching for and sharing documents and specific information thanks to classified, indexed and keyword-retrievable documents.
  - Download your files faster thanks to IRIS' hyper-compression.
  - Limit the risk of errors and data loss from manual operations (figures encoding, text rewriting, etc.).
  - Your staff can easily access information and focus on more worthwhile activities.
- · Improve client satisfaction
  - Better response and improved quality of service thanks to more complete and reliable information.
- Reduce your expenses
  - Focus on more strategic tasks with greater added by automating routine processes.
  - Reduce the quantity of paper and printing, as well as paper document transport and mail costs.
- Reduce paper storage and electronic archive space with hyper-compressed electronic documents.
- Better information security management
  - Managing confidential documents is more efficient in electronic format, as access can be controlled.
- · Optimize your company processes
  - Document information is integrated flawlessly into your company's business processes and databases (customer relationship management, HR, accounting applications or ERP systems like SAP, MS Dynamics, EBP, Ciel, Sage and more) or for sharing and storing into your Document Management System (SharePoint\*, Therefore\*, IRISNext\*\*, FileNet\*, and many others).
  - The key data feeding your applications is more reliable and complete, especially financial data.
  - Your information circulates with more fluidity: better approval tracking, easier updates, faster distribution inside the company and outside with partners and clients.
- · Limit your company's carbon footprint
- The sharing of electronic documents (e-mail, web publishing, FTP, etc.) typically emits less CO<sup>2</sup> than physical distribution.
- Reduce risk and remain in compliance with the specific constraints of your company's activity sector
  - Archive your documents for the long term.
  - Establish back-ups of your documents.
  - Your documents will be readily available to you in the event of an audit or lawsuit.
  - Be in compliance with the norms and standards in force.

#### Products

#### IRISCompressor™ Pro

- · Drastically reduce the size of your images in a single click!
- Create searchable PDF files (or XPS in the Pro version) without compromising text resolution and legibility.
- Save money by reducing storage space and saving bandwidth while sharing documents.
- · Retrieve your compressed documents in a snap thanks to keywords searches.
- · Compressed PDFs are fully compliant with all PDF viewers.
- Pro: Choose up to 5 different OCR languages from a list of 137 (not simultaneously).

#### Readiris™ 16

- Turn paper documents into editable, digital text (Word, Excel®, OpenOffice, etc.) in a new, user-friendly interface (Office 2010 look) with improved multi-core CPU support and multitasks.
- Create searchable PDF files and hyper-compress them thanks to iHQC™.
  - Pro PC: up to 5 times smaller than the original image.
  - Corporate Mac: up to 20 times smaller than the original image.
  - Corporate PC: up to 50 times smaller than the original image.
- · Worldwide OCR solution.
  - Pro & Corporate: 137 recognized languages (incl. Asian languages, Arabic and Hebrew!).
  - Corporate: up to 5 different languages on the same document.
- · Output connectors to the Cloud:
  - Pro & Corporate: upload to Dropbox, Box.net, Google Docs™ and Evernote™.
  - Corporate: upload to SharePoint® and Therefore®
- Readiris™ Corporate 16 only:
  - recognize and manage your business cards thanks to the included Cardiris™ Pro 5.
  - batch OCR and document separation, no page limitation (50 pages maximum in Readiris™ Pro 16).

# Cardiris™ Corporate 5 for CRM (available with the Enterprise Site License Program only)

- · Automatically extracts data from scanned business cards.
- Advanced synchronization with Microsoft Dynamics® CRM 3, 4, CRM Online (Cloud), Salesforce™ and Google™ contacts.

- Advanced image processing (brightness, contrast, despeckling, etc.).
- Scanning of multiple cards simultaneously and double-sided business cards recognition.
- · Powerful duplicates management tool.
- Create new business cards from any email address or signature or selected text in a few clicks.
- · Assign contacts to existing accounts or create new leads accounts.
- · Customizable fields and categories.
- Advanced export functions (Excel®, Outlook, e-mail, JPG, TIF, HTML, XML, CSV, vCard .vcf, Intellect, FrontRange GoldMine, IBM Lotus Notes, Innomatix InfoContacts II, Novell GroupWise, Palm Desktop, Sage ACTI, Salesforce CRM, Time and Chaos, Windows Contacts).
- 218 countries recognized (installation and user interface available in 19 languages).

# **Academic Site License Program**

The 21st century is marked with unprecedented technological revolutions in the professional world, and providing students with the latest document management technologies is crucial in developing their set of skills for a successful future in the workplace. Also, as active members of the academic community who need to make the most of their study and research environments, students will benefit from cuttingedge instruments making the perfect link between traditional education material and contemporary work and communication techniques.

The IRIS Academic Site License Program allows higher academic institutions to empower students, but also faculty and staff, with the ideal tools to engage students and enhance learning, creating and sharing in a motivating and collaborative educational environment.

The IRIS Academic Site License Program is adapted to every institution size and comes in three different licensing models, distinguished by the number of licenses (or "seats") they offer:

Classroom: 25 seats/licensesCollege: 200 seats/licensesUniversity: 1000 seats/licenses

Those three packages are applicable to any product within the IRIS Academic Site License Program portfolio: IRISCompressor™ Pro and Readiris™ Pro 16.

## Main benefits of IRISCapture™ Invoices:

- Optimize your IT budget with exceptional value pricing while providing students, teachers and administrative staff with industry-leading document management software.
- Save money and network bandwidth with the best PDF hyper-compression technology available on the market.
- Turn any paper educational document into fully editable text for students and teachers to edit, study and share.
- Help teachers save time for media-rich class preparation by allowing them to adapt academic material to their specific needs in a few clicks.
- Empower teachers with the ability to access key information and data 24/7, both inside the classroom and outside.
- Help students save time to create and present original material through creative and professional-looking multimedia presentations.
- Empower your students with mobiles tools providing them with the ability to learn both on campus and outside.
- Prepare their future with the ideal foundations upon which professional abilities will be built later.

   Simplify dealerment and lisened compliance thanks to fine of charge ECD (Floring).
- Simplify deployment and license compliance thanks to free of charge ESD (Electronic Software Delivery).
- · Gain and maintain control on academic tools.
- Bring the latest document management assets on campus, so teachers can incorporate communication skills in a digital world as an integral part of their curriculum.
- Create a multiplatform environment: work, share files, collaborate and visualize across operating systems.

# IRISPen<sup>™</sup> Executive 7

## You scan, it types & translates

The IRISPen™ Executive 7 is a full-featured text recognition pen scanner. It works just like and as simply as a highlighter! Simply slide the digital pen over printed information from newspapers, magazines, books, letters, etc. and the text will instantly appear on your computer screen, right where your cursor is located!

It also features an integrated translation functionality for over 50 languages. Select the language you would like to translate your text into, slide the pen over your paper document and the translation will appear on your screen in a matter of seconds, ready to be hear as well!

- · Specially convenient for
  - Health (aid people suffering from dislexia, reading problems, hearing problems,...)
  - Education (students' needs for thesis construction, graduate reports,...)
  - Logistic (repeated simple or complex data entry like bank account, AWB#, tracking number, index, software key, ...)
  - Business & Travel (translations' need on the spot, home banking,...)
- Portable and USB-powered.
- Text and numbers recognition including CMC7 for banking operations.
- · Table separator mode functionality
- · Cutting-edge barcode recognition
- Translate your scanned text into 55 languages
- Text-to-speech functionality (55+ languages)
- Multilingual solution (130+ languages recognized).
- Complete integration into almost any application (Word, Excel®, Outlook®, etc.). The pen works like a keyboard emulator. The pen works like a keyboard emulator on PC or Mac.
- · Advanced white LED's for improved contrast and font reading.

Box content	IRIScan™ Executive scanner • Software suite, user guides are downloadable online at www.irislink.com/ start • usb cable • Calibration sheet • IRIS Software suite licenses (windows only)

Specifications	
Image censor	CIS
Scan resolution	Up to 600 dpi
USB	2.0
Power consumption	<2.5W
Coverage area	8.5 x 32 inches (216 x 813 mm)
Scanning speed	Simplex: 8 seconds per page @ 300 dpi (black & white or color)  Duplex 5 seconds per page @ 300 dpi (black & white or color) / IPM 12 sec
Paper Thickness	16-32 lbs. (60-120 g/m2)
Scanner drivers	Twain, WIA
Scan method	Duplex

Official certificates compliancy are available at: www.irislink/certificates

### Minimum computer requirements

#### Windows®

- CPU Pentium® 4 or equivalent processor

- Microsoft Windows® 10/8/7

- Ram: 2GB RAM

- Disk space : 350 MB

- USB port

### Scan anything, anywhere. No computer needed!

Ultra-compact, autonomous and portable, the battery-powered IRIScan™ Anywhere 5 Wifi is the ideal device to get rid of any paper. Perfect for scanning just about anything at home or on the go, it allows mobile users to easily capture documents, contracts, business cards, receipts and more, without a computer!

Just slip your document through the portable scanner; it is saved automatically into the provided MicroSD™ card and ready to be sent via Wi-Fi to all your mobile devices (smartphone, Android™ tablet, iPhone®, iPad®) and to your PC or Mac. Once back at home or in the office, the scanned documents are automatically turned into editable files by IRIS′ flagship OCR software Readiris™, allowing you to easily archive, edit and share them!

Fits perfectly any scan need of SMB users & on the go actors, e.g. in the transport sector (bill of lading, delivery notes signature, etc), healthcare sector (prescriptions, pharmacist drug list, etc) or for consulting tasks. Gain mobility while saving space on your desk!

### Key features

#### Mobile scanner

- · Battery-powered and ultra-compact. No computer or cables needed to scan!
- Scan up to 100 A4 documents on battery mode.
- Scan directly to JPEG/PDF.
- Scanning resolutions: 300/600/1200 dpi.
- 1.44"TFT Color Display Panel for instant scan preview.
- Scanning speed A4/Color
  - 300/600 dpi: 12 pages per minute.
  - 1200 dpi: 8 pages per minute.
- Directly save scans into your microSD™ card (up to 32 GB).
   FREE MicroSD™ card included.
- Share your scans via Wi-Fi to ANY device (iOS®/Android™ & PC/Mac®).
   iOS®/Android™ Apps for easy Wi-Fi transfer to tablet & smartphone.

### Free powerful software suite included (SRP value above 200€/\$)

- Readiris<sup>™</sup>. OCR software Convert any paper document, PDF, or image file into editable
  Office documents and upload to the Cloud in a click.
- Cardiris™: Business cards recognition software Scanned business cards are automatically retyped and exported into your favorite contact manager (Outlook®, ACTI®, etc.)
- IRISCompressor™ Pro: Create hyper-compressed indexed PDF files (up to 50 times smaller without altering image quality), just ideal for archiving, retrieving information or sharing.

10 scanner menu languages	English, Spanish, French, German, Italian, Dutch, Russian, Si. & Tr. Chinese, Japanese	
Battery	Built-in 1200mAH Li-polymer battery	
	Scanning capacity when fully charged: up to 100 A4 pages	
Charging method	USB cable	

#### Minimum computer requirements

#### Scanner

- At least one USB port available
- Installable on any operating system that supports mass storage protocols

#### Software suite for Windows®

- Intel® Pentium® based PC or equivalent recommended
- Microsoft® Windows® 10, 8, 7
- 512MB RAM recommended
- 1GB of available hard disk space
- Internet connection for software download

#### Software suite for Mac OS®

- Mac® computer with Intel® processor
- Mac OS® X version 10.9 or above
- 512MB RAM recommended
- 1GB of available hard disk space
- Internet connection for software download

# IRIScan<sup>®</sup> Pro 5

#### Be Smart, Automate Your Scans!

The IRIScan™ Pro 5 is a multi-functional duplex color scanner with ultrasonic feature. Thanks to its amazing value-for-money software suite, it offers small businesses and independent workers a powerful tool to improve their productivity, allowing them to save precious time in their administrations tasks:

Scan any type of document - Contracts, invoices, receipts, bills, business cards and even plastic cards like Identity cards, insurance cards, credit cards... can be scanned in a single click at a very high speed (23ppm).

Convert any paper document, PDF or image into digital files that can be edited, indexed and shared - Thanks to the included Readiris™ Corporate OCR software, scanned documents can be converted, edited, hyper-compressed (thanks to iHQC™), and sent directly to the Cloud (SharePoint®, Google Drive™, Evernote®, Box, Skydrive™, Dropbox). Paperless is the word!

Scan, recognize and manage their business cards - Thanks to Cardiris™ Corporate, users get rid of their cumbersome paper business cards and keep their electronic contacts up-to-date in their favorite Contact Manager (Outlook®, Act!®, etc.) or in the Cloud (Google™ Contacts, Salesforce™, etc.). 10 business cards stack at once with up to 40 business cards per minute!

#### **Key Features**

- Automate scans to cloud Services (MS SharePoint®, Therefore™, Dropbox, Box, One drive®, Google Drive™ and FTP), update up to 40 Business cards/minute to MS Outlook, Microsoft CRM and Salesforce.com, scan receipts to PDF, MS Word, MS Excel, Tiff, JPG, BMP and many more output format, scan ID Cards, Credit cards, embossed plastic cards in jpg or BMP in your FTP Server
- Smart task Button manager: simply press a button to convert files in any format or even to audio format!
- Scan up to 118" long (3m) documents such as receipts or technical plans thanks to "the long page mode"
- Ultrasonic sensor: paper jams or double grabbing of your documents: those will never be torn again!
- · AC powered and USB 3.0 compatible
- Convert your documents to audio .wav files and listen to them during travel.
- · Extended software suite included:
  - Readiris Corporate: Scan your documents to Word, Excel®, PDF, or .wav files to listen to!
  - Cardiris Corporate: Recognize your business cards Manage your contacts
  - IRIScompressor Pro: Create up to 20 times smaller PDF' from any image or PDF files
  - Button manager: Configure up to 9 different automated workflows

# IRIScan<sup>™</sup> Pro 5 File

### Automate yours scans & classify your files easily!

The IRIScan™ Pro 5 File is a multi-functional duplex color scanner with ultrasonic feature. Thanks to its amazing value-for-money software suite, it offers small businesses and independent workers a powerful tool to improve their productivity:

- Scan any type of document Contracts, invoices, receipts, bills, business cards and even plastic cards (ID, Credit cards, etc.) can be scanned at a very high speed (23ppm).
- Convert any paper document, PDF or image into digital files that can be edited, indexed and shared - Thanks to the included Readiris™ Corporate OCR software.
- Scan, recognize and manage business cards Thanks to Cardiris™ Corporate, users keep their electronic contacts up-to-date in their favorite Contact Manager (Outlook®, Act!®, etc.) or in the Cloud (Google™ Contacts, Salesforce™, Microsoft® CRM).
- Classify & rename batches of documents easily! IRISmart™ File allows you to either rename on the fly all your documents (paper & digital) or to choose a predefined automatic naming. Those files will then be sorted in specific folders, based on your own needs, and automatically converted to compressed PDF format, fully searchable!

### **Key Features**

- Automate scans to cloud Services (MS SharePoint®, Therefore™, Dropbox, Box, One drive®, Google Drive™ and FTP), update your business cards easily (10 per batch) to MS Outlook, Microsoft® CRM and Salesforce.com, scan receipts to PDF, MS Word, MS Excel, Tiff, JPG, BMP and many more output format, scan ID Cards, Credit cards, embossed plastic cards in jpg or BMP in your FTP Server
- Smart task Button manager: simply press a button to convert files in any format
- Scan up to 118" long (3m) documents such as receipts or technical plans
- · Ultrasonic sensor: avoid paper jams or double grabbing of your documents
  - AC powered and USB 3.0 compatible
- · Extended software suite included:
  - Readiris Corporate: Scan documents to Word, Excel®, PDF, or .wav files to listen to!
  - Cardiris Corporate: Recognize your business cards Manage your contacts
  - IRIScompressor Pro: Create up to 20 times smaller PDF' from any image or PDF files
  - Button manager: Configure up to 9 different automated workflows
  - IRISmart File: Easy-to-use semi-automatic file classification solution, perfect for SMBs: \* Save time & sort out multiple stacks of documents quickly (contracts, letters,...)
    - \* Classify easily piles of documents into the right folders, locally or in the Cloud
    - \* OCR on the fly for fast content capturing & efficient document/folder naming
    - \* Store documents in predefined folders, thanks to automatic folder tree creation
    - \* Export to MS Sharepoint, Box, Dropbox, Evernote, Google Drive or OneDrive

    - \* Impressive ability to process multiple batches of documents in parallel
    - \* Compatibile with any TWAIN scanner or MFP's
    - \* All-in-one software solution ready to use without training/customization needed
    - \* IRISmart File comes up with 2 modules:
      - 1. Rename on the fly (manual file & folder naming)
      - 2. Automatic filing (predefined file naming & folder structure)

#### Your documents in a blink!

Scan any type of document or books - Contracts, invoices, receipts, bills, plans, newspapers, magazines without cutting or damaging them!

This document camera scanner will help you save time and effort, and make it an easy job by scanning not only books or magazines but all types of content restrained in binders, spirals or files. Just flip the page and scan with the automatic page detection function.

Auto straighten & finger removal feature: Simply lay the book under the camera, open and hold down book edges with your fingertips. The page will be flattened while recognizing and cropping your fingers from the final result. Your file is perfectly straight and finger-free every time.

IRIScan Desk software also integrates a powerful OCR engine which converts scanned documents into searchable PDF and editable Texts, Word, Excel formats meaning you wont need to do long and boring retyping anymore!

Discover a new approach to the digitization of documents and books!

#### Key features

- Truly portable design: Lightweight and with a flexible arm design it makes it ideal for use in home/office or while traveling
- USB Powered Plug and play, no need for external power adapter.
- One click scanning: It just takes a few seconds to complete the scanning process.
   Self timer shooter: Automatically scan after setting the shooting interval time to 3/5 or 7 seconds. It's a real time saver for scanning larger volumes of files and documents.
- Automatic detection of documents: just place any document on the scanning mat and it
  will be automatically detected and cropped.
- Digitize Books in a blink and export to an .Epub or .PDF format before reading them directly in your favorite electronic reader:
  - Auto page-turn detection sensor
  - Book curve image-flattening technology
  - Erase finger from image function
  - Front and back cover detection
- Exceptional Image Quality capture tiny details and the smallest text from any paper materials
- Advanced image processing
  - Automatic De-skewing and Cropping
  - Automatic edge filling of damaged document

Box Information		
Box Size (H x L x D)	14 x 40 x 14 cm (5.5 x 15.74 x 5.5 in)	
Box Weight	Around 1,37 kg (3.02 lbs)	
Box languages	Arabic, Dutch, English, French, German, Italian, Portuguese, Russian, Spanish	
Box content	Camera Scanner • USB cable • ScanPad • Getting started guide	
Scanner specifications		
Scanning technology	8.0-Megapixel CMOS Sensor	
Max resolution	3264 x 2448 pixels	
Document size	A4 (297 x 210mm / Landscape)	
Scanning speed	1,5 seconds per page in color mode 30PPM	
Built-in LED Lights	4pcs	
Output resolution	300 DPI	
Output level	Color / Balck & White / Grayscale	
Interface/drivers	USB 2.0 Type B x 1 (For PC Connection) USB 2.0 Type-A x 1 (For USB Extension)	
Power supply	5V by USB powered	
Output formats	Document: JPG, PDF (Image), PDF (Searchable), PDF (Txt), Word, Txt, Excel, E-book: EPUB	
Dimensions (H x L x D)	Folded size: 267 (H) x 85 (W) x 75 (D) mm/(10.5 x 3.34 x 2.95 in) Working size: 267 (H) x 85 (W) x 221 (D) mm/(10.5 x 3.34 x 8.71 in)	
Weight	780 gr/1,71lbs	
Recommended daily scanning volume	Up to 500 pages daily	

#### Minimum requirements

#### Software suite for Windows®

- CPU: Intel® Core 2 Duo or higher
- Graphical Card: Intel® Standard Graphics or higher Graphics cards with 512 VRAM
- Ram memory: 2GB
- Hard disk space: 2 GB
- USB: USB 2.0 Port
- Windows® Operating System: Windows® 10

Software and user guides are not included in the box and available for download at: www.irislink.com/start

# IRIScan<sup>®</sup> Desk 5 Pro

#### Your documents in a blink!

Scan any type of document or books - Contracts, invoices, receipts, bills, plans, business cards and even plastic cards like Identity cards, insurance cards, credit cards... without cutting or damaging them!

This document camera scanner will also help you save time and effort, and make it an easy job by scanning not only books or magazines but all types of content restrained in binders, spirals or files. Just flip the page and scan with the automatic page detection function.

Because size matters: With the IRIScan Desk 5 Pro you won't be regretting the typical flatbed limitations. You will be able to capture up to any A3 sized documents. Simply position the document on the A3 scan mat and press scan.

Adapted for your desk environment: Just imagine having this lamp scanner on the desk of your public administration like at a hospital/bank/post office or on the counter of hotels and travel companies, car renting , sport'club, ... helping you capture ID or Passport informations of your customers in just one CLICK!

Discover a new approach to the digitization of documents and books!

#### Key features

- Truly portable design: lightweight and with a flexible arm design it makes it ideal for use in home/office or while traveling
- USB Powered Plug and play, no need for external power adapter.
- One click scanning: it just takes a few seconds to complete the scanning process.
- **Self timer shooter**: Automatically scan after setting the shooting interval time to 3/5 or 7 seconds. It's a real time saver for scanning larger volumes of files and documents.
- Automatic detection of documents: just place any document on the scanning mat and it will be automatically detected and cropped.
- Video Recording: The video recording function can record the progress of any operation or demo. Very convenient for recording web tutorials, unboxings or live projections.
- Barcode Supports 1 D or 2D barcodes you can export results into Excel or Text file formats.
- · ID and passports
- Scan business cards Scan Both Sides of a Biz Card and Merge Together. Scan multiple cards at the same time.
- Digitize Books in a blink and export to an .Epub or .PDF format before reading them directly in your favorite electronic reader:
  - Auto page-turn detection sensor
  - Book curve image-flattening technology
  - Erase finger from image function
  - Front and back cover detection
- Exceptional Image Quality capture tiny details and the smallest text from any paper materials
