The all-inclusive OCR solution!

Readiris[™] Corporate 17 is the business-centric version of IRIS' flagship OCR software. It was made to help SMBs and larger companies process information contained in paper and digital documents efficiently in order to share them within their organization and network.

Readiris corporate 17 also brings a complete approach to creating, modifying and signing PDFs in an easy way.

Take the maximum benefit of your scanners or files by adding the power of Readiris Corporate 17 software.

- · Optimized interface to ease your document processing.
- Document processing and opening 20% faster then previous versions. Gain
 productivity by optimizing your precious time focusing on your core business.
- PDF Annotations: collaborate on your PDFs thanks to a full range of annotations.
- Convert batches of documents, images or PDF files into editable documents including searchable PDFs
- Automate your recognition process thanks to watched folders
- · Compress searchable PDF files up to 50 times for optimized archiving and sharing
- Create, edit and merge multipage PDF files
- Sign and secure your PDF files with passwords
- Back-up your documents in the Cloud including in professional applications such as SharePoint and Therefore
- · Sort your files using document separation tools and barcodes
- · Access your smart documents from any computer, smartphone or tablet

Quick reference guide	
Product name	Readiris™ Corporate 17
SKU - 1 licence	459402
SKU - SMB - 5 licences	459403
Interface languages	English, Spanish, French, Russian, Simplified Chinese, Traditional Chinese, Korean, Japanese, Italian, Polish, Dutch, German, Arabic, Danish, Finnish, Hungarian, Norwegian, Portuguese PT, Portuguese BR, Romanian, Swedish, Ukrainian, Bulgarian, Catalan, Czech, Greek, Hebrew, Turkish.
Supported OCR languages	138 (complete list at www.irislink.com)

The Ultimate PDF toolbox - Review and collaborate on your PDFs

- Annotations Comment your PDF with Strike out, underline, text box, watermark, attached file, voice record and text to speech annotations.
- Create searchable PDFs with a text layer ready to be searched
- Edit PDF files Correct text directly into Readiris[™] before the conversion process.
- Organize your PDFs Add, delete, position, merge, & straighten PDF pages
- Compress your documents for optimized archiving Use IRIS' patented hyper-compression technology (iHQC[™]) to create
 PDF files up to 50 times smaller than their original size.
- Sign your PDF files digitally The PDF documents you generate with Readiris™ can be signed digitally. A digital signature identifies the person who created the PDF document; it authenticates the identity of the author, certifies a document and helps prevent unwanted changes to the PDF document.
- Extended support of PDF formats Readiris[™] Corporate 17 features an extended set of PDF creation tools including the support of PDF/A, Text-PDF, Text-image and PDF iHQC[™] Level 2 & 3 for even lighter files.

Access to a next level of document processing

- Process batches of documents and reduce document processing times by splitting tasks over a multi-core workflow
- Sort your files using document separation tools and barcodes Add a separator like a blank page or a barcode between each document to tell the OCR software to create different output files from a single batch of documents.
- Use watched folders to automate your workflow Readiris[™] Corporate 17 can monitor specific folders on a local drive, network or FTP server and automatically process any document placed in this specific location.
- Connect to SharePoint, Therefore or FTP Process documents directly into a network folder using an FTP connection or export them to the company's intranet DMS such as SharePoint® or Therefore™ using Readiris™ 17 built-in DMS connectors.
- Index your documents If you are using a document management system that handles index fields, you can either use Readiris[™] Corporate 17 to fill them out using "Drag and drop OCR"
- Scan with MFPs and professional scanners For small and medium businesses using multi-sheet feed scanners, MFPs or professional scanners, Readiris™ Corporate 17 is a first-class solution to handle the processing of incoming documents.

- 1 GHz processor or more (multicore processorrecommended)
- Microsoft® Windows® 10, 8, 7(32 or 64 bit)
- 1GB RAM (2GB recommended)
- 400MB of available hard disk space
- Internet connection for software download and activation

Scan your business cards. Recognize and manage your contacts.

Cardiris[™] Corporate 5 quickly scans your business cards, captures the information they contain and instantaneously creates electronic contacts to be sent to your favorite contact manager (Outlook[®], ACT[®], Lotus Notes[®], etc.) or synchronized straight to the cloud with Microsoft Dynamics[®] CRM, Salesforce[™] and Google[™] contacts.

- · Automatically extracts data from scanned business cards.
- Advanced synchronization with Microsoft Dynamics® CRM 3, 4,
- CRM Online (Cloud), Salesforce™ and Google™ contacts.
- On-the-fly OCR drag and drop text on selected fields.
- Advanced image processing.
- Assign contacts to existing accounts or create new leads accounts.
- Double sided business cards recognition.
- Customizable fields and categories.
- Create new business cards from selected text.
- Contact management software.
- Powerful duplicates management tool.
- Advanced export functions.
- Easy export to Excel[®].
- 19 installation and user interface languages.
- 218 countries recognized.

Quick reference guide	
Product name	Cardiris™ Corporate 5 for CRM
SKU	458831
Countries recognized	218 (complete list at www.irislink.com)
Installation and user interface languages	19 (Chinese (simplified & traditional), Czech, Dutch, English, French, German, Hungarian, Italian, Japanese, Korean, Polish, Portuguese (Brazil), Portuguese (Portu- gal), Romanian, Russian, Spanish, Turkish, Ukrainian).

- Automatically extracts data from scanned business cards Cardiris[™] takes care of the retyping job for you!
- Advanced synchronization with Microsoft Dynamics[®] CRM Specific field mapping for integration with Microsoft Dynamics[®] CRM 3, 4, CRM Online (Cloud), Salesforce[™] and Google[™] contacts.
- Advanced image processing Improve recognition by adjusting brightness, contrast, despeckling and check the improvements in real time. Let Cardiris[™] do the job for you, or adjust the scanned images manually.
- Customizable fields and categories Add searchable, customizable fields and categories to your contact's data and export them in csv, xml, html, Excel® and Outlook®.
- Contact management software
 Use Cardiris[™] 5 as your major contact manager or choose to export the retrieved data into your favorite contact manager (Outlook[®], ACTI[®], etc.).
- Powerful duplicates management tool
 Keep your business contats up to date! Ask Cardiris™ to
 automatically compare all your business cards, and determine
 what info/contact you want to save, update or discard.
- Easy export to Excel®
 Use all the retriened information from your business cards in Excel®.
 Search and sorts your contacts. Organize emailings and mail merges.
- 218 countries recognized No matter where your contact is from, Cardiris[™] 5 will recognize her/his business card in a snap!
- 19 installation and user interface languages
 The installation and user interface are localized in 19 different languages.

Minimum requirements

- Intel® Pentium® based PC or equivalent recommended
- Microsoft® Windows® 7, Vista® or XP
- 256MB RAM recommended
- 250MB of available hard disk space
- CD-ROM drive

Be Smart. Organize your Files!

Ideal for freelancers, microbusinesses and SME, IRISmart[™] File will help you carry out long, slow everyday administrative tasks quicker than ever before. Anyone who wants to file a large amount of paper or electronic files into ordered folders quickly and efficiently will find this intelligent software to be a major ally. Whether you manage contracts, bids, medical certificates, minutes, legal reports or architectural plans – all of your documents are sorted semi-automatically on a hyper-structured, consistent basis, ready to be shared easily and retrieved quickly!

With IRISmart File, you can forget about stacks of disorganised documents, files recorded inconsistently, time wasted searching for specific contents or explaining to colleagues how to find a document in the archives, ... and go straight to optimised organisation of your documents and folders!

Create specific folder tree structures, dedicated to each supplier, client, entity, or project... that you or your colleagues need to track.

These predefined folders will contain your different batches of compressed and renamed documents – information which can be retrieved from anywhere at any time.

IRISmart File will simplify life for you and your employees once and for all!

Quick reference guide	
Product name	IRISmart™ File
SKU - ESD	459046
Interface languages	English, Spanish, French, Japanese, Italian, Dutch, Ger- man, Hungarian, Czech

Efficiently manage the lifecycle of your files

Forget your everyday administrative hassles

- · Save time & sort out multiple stacks of documents quickly (contracts, letters,...)
- Classify easily piles of documents into the right folders, locally or in the Cloud
- OCR on the fly for fast content capturing & efficient document/folder naming
- Store documents in predefined folders, thanks to automatic folder tree creation
- Export to MS Sharepoint, Box, Dropbox, Evernote, Google Drive or OneDrive-Impressive ability to process multiple batches of documents in parallel
- Optimal previews of your files: thumbnails that you can move, split and delete...
- Import your documents into the software instantly with a simple Drag & Drop
- Compatible with any TWAIN scanner or MFP's
- Your documents are converted into PDF format 20 x smaller !•Name and file up to 500 pages per day!
- · File all of your documents, whether they are electronic (PDF, JPEG, PNG, etc.) or paper!
- Create indexed PDFs automatically. Crop, fill, adjust, etc. For perfect rendering.
- · All-in-one software solution ready to use without training/customization needed

IRISmart File comes with 2 modules

- 1. Rename on the fly (manual file & folder naming)
- 2. Automatic filing (predefined file naming & folder structure)

Minimum computer requirements

For Windows®

- 1 GHz processor or more (multi-core processorrecommended)
- Microsoft® Windows® 10, 8, 7
- 1GB RAM (2GB recommended)
- 1GB of available hard disk space
- Internet connection for software download and activation

2018 mittelstand

Capture ID card and passport data in just a few clicks!

IRISmart[™] Security software recognises machine-readable zones (MRZ) and extracts the sensitive data they contain. An MRZ is placed on many official documents* to guarantee the identification and validity: ID cards, passports, driving licences, residence permits, etc. Personal data is captured by this powerful software, facilitating your client registration procedure. With IRISmart™ Security, forget about manual encoding: avoid errors and save time!

The ultimate two-in-one thanks to IRIScan[™] Desk 5 Security

The innovative IRIScan[™] Desk 5 Security camera scanner quickly scans pass-ports and ID cards. It extracts the key data from official documents thanks to its MRZ (machine-readable zone) recognition module. It lets you set up a reliable authentication system in your organisation. Combined with IRISmart™ Security software, you will never again need to encode sensitive data manually. And with its compact design, it is ideal for reception desks!

Main advantages

IRISmart[™] Security

- ID Module and Passport

This module lets you extract the essential information from official documents (ID cards, passports, driving licences, etc.): "Document type", "Last name", "First name", "Date of birth", and finally "Document number". During export, a folder is created, containing an Excel file that includes this data as well as the scanned images. (JPG, PDF)

- Advanced ID and Passport module

This more advanced module can extract more data. Additional fields are recognised: "Issuing country code", "Expiry date", and "Nationality". A daily folder is created during export, including an Excel file that compiles the data and the images of the scanned documents. (JPG, PDF)

- IRISmart[™] Desk 5 Security
- · Wonderfully portable design: light and with a flexible arm, this scanner is ideal for reception desks or your desk.
- · Powered by USB and "plug and play", it needs no mains power.
- One-click scanning: the scanning process takes just a few seconds.
 Automatic document detection: simply place the document on the scanning mat. It will be automatically detected and cropped.
- Ideal for scanning several ID cards and passports at the same time.
- Scanning business cards: scan both sides of a business card and merge them. Scan several cards at a time.
- Advanced image processing
- Automatic cropping and straightening
- Automatic edge filling for damaged documents
- Video recording
- · Barcode: handles 1D and 2D barcodes, exporting the results to an Excel or text file.
- · Book scanning: scan books in the blink of an eye and export them to Epub or PDF format to read them directly on your reader.

Dimensions (H x L x D)	Folded: 375 (H) x 85 (L) x 75 (D) mm / (14.76 x 3.34 x 2.95 inches) Normal: 375 (H) x 85 (L) x 270 (D) mm / (14.76 x 3.34 x 10.62 inches)	
Weight	800 g / 1.76 pounds	
Recommended daily scanning volume	Up to 500 pages per day	

Minimum required system configuration:

Windows® software suite

- Processor: Intel® Core 2 Duo or higher
- Graphics card: Intel® Standard Graphics or higher graphics cards with 512 VRAM
- RAM size: 2 GB
- Hard disk space: 2 GB
- USB: USB2.0 port
- Windows® operating system: Windows® 7, 8, 10

The software packages and user guides are not included in the box. To download them, go to: www.irislink.com/start

The most powerful, easy-to-use production scanning and OCR solution supporting most popular high-speed scanners!

Boost your production scanner! Scan large quantities of documents at high speed, classify them by document type and transform them into compressed, indexed files that can be modified and are easy to share, archive and retrieve.

Main benefits of IRISPowerscan™

- No page limitation.
- A modular solution capable of fast scanning and processing of very large volumes of documents, up to 10,000 documents per computer per day.
- Wide range of document output formats available simultaneously (PDF, Word, etc.) including PDF/A-1b, ideal for long term archiving.
- Hyper-compression: compresses your documents up to 50 times with
 the same legibility ! Facilitates document sharing and storage.
- Fast and accurate classification of documents.
- Advanced document type identification based on layout recognition (no separators or barcodes needed)
- · Indexing of strategic data (text, numbers, barcodes, etc.)
- Easy export to document management systems and business applications (Microsoft[®] SharePoint[®], Therefore[™], FTP, etc.).
- Develop a connector to your own document management application thanks to an easy-to-use .NET wrapper.
- Easy information retrieval: indexing of your documents allows you to easily find what you need using keywords or sections of text content.
- · Easy to install and to use.
- Interfaces with all types of scanner.
- Database lookup: compare and/or match captured indexes with pre-existing databases

Quick reference guide

Product name

IRISPowerscan[™] 11

Call IRIS Office for more info or visit www.irislink.com

Key benefits

- Supports all high speed scanners no volume limitation
- Optimizes image quality
- Classifies your documents per kind of documents (invoices, order forms, delivery bills, etc.) based on pre-defined criteria (document layout, content location, blank page separations, barcode placed in your batches before scanning)...
- Names and indexes your documents using a large range of information (numeric sequence, user name, barcodes, etc.). Indexes are attached to your documents to easily retrieve them later from your electronic document management system.
- Creates all types of electronic documents: editable formats (Word, Excel, PDF, etc.) or non-editable formats like images (JPEG, TIFF, etc.) and documents adapted for archiving (PDF, XPS) or for long term archiving (PDF/A-1b). Creates simultaneously up to 11 documents in different formats!
- · Highly compresses color or black and white PDF or XPS documents (addon) up to 50 times while keeping a high quality image as well as the text layer. Documents storage and sharing are much more easier.
- Powerful text recognition: recognizes 137 languages !
- · Exports to external applications: documents and their associated indexes can be exported to various destinations. They can be sent via e-mail attachment or a FTP file, put in a folder or a shared folder for a group of users , a document management system like Microsoft® SharePoint® (add-on) or Therefore™ (add-on). Via custom connectors, you can also send documents to a database, a business application (accounts and financial control, HR, etc.), or an ERP system.

Add-ons

- IRIS high compression with iHQC[™] (Intelligent High Quality Compression) to hyper-compress PDF and XPS files up to 50 times. • Microsoft® SharePoint® connector to export documents and indexes into Microsoft®
- Sharepoint[®], directly in the right libraries.
 Therefore[™] connector to export documents and indexes into Therefore[™], directly in the right cathegories.
- FileNet[®] connector to export documents and indexes into IBM[®] FileNet[®] Content Manager.
- IRISFingerprint[™] to easy and quickly identifies documents on the basis of their layout.
- Multi-user centralized configuration management to connect several IRISPowerscan™ together in a network
- · ISIS Driver to pilot scanners equipped with ISIS driver.
- · Background Processing to process documents and scan in the same time.
- Legal Scanning to complie with Belgian legal scanning law (guarantees that the scanned image has not been modified after scanning)
- Arabic OCR to recognize Arabic and Farsi.
- Asian OCR to recognize Japanese, Traditional Chinese, Simplified Chinese and Korean.
- Hebrew OCR to recognize Hebrew.

Minimum computer requirements

- Intel® Pentium® or equivalent. Intel® Pentium® IV 2GHz or equivalent is recommended
- 512 MB RAM, 1 GB RAM is recommended
- 400 MB free disk space for the software, plus the space necessary for the image files
- Operating system: Windows® 10

Enterprise Site License Program

New challenges for large organizations in a corporate world requires information to be input, processed and retrieved quickly and easily. Ideally, all in one place whatever the source file or document format used.

Get organized, simplify your life.

The IRIScan[™] Express 4 is a powerful combination of a fully portable color scanner and a breakthrough and easy-to-use OCR software. Compact, lightweight and USB-powered, one click PDF at fingertip, it is the fastest single sheet fed por-table scanner on the market, and is designed to be carried anywhere.

IRIScan Express 4 allows users to define easy document process thanks to the intuitive unique Button Manager. The digital Button manager transforms in a snap, your mobile single sheet fed into a mobile multiple sheet fed scanner!

But that's not all. The provided world-renowned OCR software suite will extract all key information from your scans easily. Your documents are turned into fully editable files ready to be shared in the Cloud, and your business cards are saved as digital contacts within your favorite contact management system.

Key features

Portable scanner

- Compact and lightweight (less than 400 gr./1 lb.)
- Powered by the provided USB cable, no wall outlet required
- · Fastest single sheetfed mobile scanner on the market Up to 8 pages per minute
- High-precision scanning resolutions (300/600/1200 dpi)
- Simplex scanning in color or black & white
- · Scan receipts, business cards, photos, A4/letter size documents, to name a few
- Automatic document size detection and cropping
- Windows and Mac compatible
- Create one multiple page PDF file by scanning multiple individual sheet in a row
- Automated sending to email/ SharePoint/One Drive/ Evernote/Dropbox/FTP/archive folders
- Up to 9 configurable functions that ease your document process job thanks to the dedicated Button Manager software

Powerful software suite

- Readiris[™]: OCR software Convert any paper document, PDF, or image file into editable Office documents and upload to the Cloud in a click
- Cardiris™: Business cards recognition software Scanned business cards are automatically retyped and exported into your favorite contact manager (Outlook, ACT!, Salesforce, etc.)

Be Smart, Automate Your Scans !

The IRIScan[™] Pro 5 is a multi-functional duplex color scanner with ultrasonic feature. Thanks to its amazing value-for-money software suite, it offers small businesses and independent workers a powerful tool to improve their productivity, allowing them to save precious time in their administrations tasks:

Scan any type of document - Contracts, invoices, receipts, bills, business cards and even plastic cards like Identity cards, insurance cards, credit cards... can be scanned in a single click at a very high speed (23ppm).

Convert any paper document, PDF or image into digital files that can be edited, indexed and shared - Thanks to the included Readiris[™] Corporate OCR software, scanned documents can be converted, edited, hyper-compressed (thanks to iHQC[™]), and sent directly to the Cloud (SharePoint[®], Google Drive[™], Evernote[®], Box, Skydrive[™], Dropbox). Paperless is the word!

Scan, recognize and manage their business cards - Thanks to Cardiris[™] Corporate, users get rid of their cumbersome paper business cards and keep their electronic contacts up-to-date in their favorite Contact Manager (Outlook®, Actl®, etc.) or in the Cloud (Google™ Contacts, Salesforce™, etc.). 10 business cards stack at once with up to 40 business cards per minute !

Key Features

- Automate scans to cloud Services (MS SharePoint[®], Therefore[™], Dropbox, Box, One drive[®], Google Drive[™] and FTP), update up to 40 Business cards/minute to MS Outlook, Microsoft CRM and Salesforce.com, scan receipts to PDF, MS Word, MS Excel, Tiff, JPG, BMP and many more output format, scan ID Cards, Credit cards, embossed plastic cards in jpg or BMP in your FTP Server
- Smart task Button manager: simply press a button to convert files in any format or even to audio format !
- Scan up to 118" long (3m) documents such as receipts or technical plans thanks to
 "the long page mode"
- Ultrasonic sensor: paper jams or double grabbing of your documents: those will never be torn again!
- · AC powered and USB 3.0 compatible
- · Convert your documents to audio .wav files and listen to them during travel.
- · Extended software suite included:
 - Readiris Corporate: Scan your documents to Word, Excel®, PDF, or .wav files to listen to!
 - Cardiris Corporate: Recognize your business cards Manage your contacts
 - IRIScompressor Pro: Create up to 20 times smaller PDF' from any image or PDF files
 - Button manager: Configure up to 9 different automated workflows

- Hard disk space: 1.5 GB
- USB: USB2.0 Port (USB 1.1 supported)
- Windows® Operating System: Windows® 7, 8,10

Software suite for Mac OS®

- Mac[®] computer with Intel[®] processor
- Mac OS® X version 10.9 or above 5GB ram
- Minimum 1 GB of available HD
- 260 MB of available hard disk space

Automate yours scans & classify your files easily!

The IRIScan[™] Pro 5 File is a multi-functional duplex color scanner with ultrasonic feature. Thanks to its amazing value-for-money software suite, it offers small businesses and independent workers a powerful tool to improve their productivity:

- Scan any type of document Contracts, invoices, receipts, bills, business cards and even plastic cards (ID, Credit cards, etc.) can be scanned at a very high speed (23ppm).
- Convert any paper document, PDF or image into digital files that can be edited, indexed and shared - Thanks to the included Readiris[™] Corporate OCR software.
- Scan, recognize and manage business cards Thanks to Cardiris[™] Corporate, users keep their electronic contacts up-to-date in their favorite Contact Manager (Outlook[®], Acti[®], etc.) or in the Cloud (Google[™] Contacts, Salesforce[™], Microsoft[®] CRM).
- Classify & rename batches of documents easily! IRISmart[™] File allows you to either rename on the fly all your documents (paper & digital) or to choose a predefined au-tomatic naming. Those files will then be sorted in specific folders, based on your own needs, and automatically converted to compressed PDF format, fully searchable!

Key Features

- Automate scans to cloud Services (MS SharePoint[®], Therefore[™], Dropbox, Box, One drive[®], Google Drive[™] and FTP), update your business cards easily (10 per batch) to MS Outlook, Microsoft[®] CRM and Salesforce.com, scan receipts to PDF, MS Word, MS Excel, Tiff, JPG, BMP and many more output format, scan ID Cards, Credit cards, embossed plastic cards in jpg or BMP in your FTP Server
- · Smart task Button manager: simply press a button to convert files in any format
- Scan up to 118" long (3m) documents such as receipts or technical plans
- Ultrasonic sensor: avoid paper jams or double grabbing of your documents
- AC powered and USB 3.0 compatible
- Extended software suite included :
- Readiris Corporate: Scan documents to Word, Excel®, PDF, or .wav files to listen to!
- Cardiris Corporate: Recognize your business cards Manage your contacts
- IRIScompressor Pro: Create up to 20 times smaller PDF' from any image or PDF files
- Button manager: Configure up to 9 different automated workflows
- IRISmart File: Easy-to-use semi-automatic file classification solution, perfect for SMBs
- Save time & sort out multiple stacks of documents quickly (contracts, letters,...)
- Classify easily piles of documents into the right folders, locally or in the Cloud
- OCR on the fly for fast content capturing & efficient document/folder naming
- Store documents in predefined folders, thanks to automatic folder tree creation
- Export to MS Sharepoint, Box, Dropbox, Evernote, Google Drive or OneDrive
 Impressive ability to process multiple batches of documents in parallel
- Compatibile with any TWAIN scanner or MFP's
- All-in-one software solution ready to use without training/customization needed * IRISmart File comes up with 2 modules :
 - 1. Rename on the fly (manual file & folder naming)
 - 2. Automatic filing (predefined file naming & folder structure)

Your documents in a blink!

Scan any type of document or books - Contracts, invoices, receipts, bills, plans, newspapers, magazines without cutting or damaging them!

This document camera scanner will help you save time and effort, and make it an easy job by scanning not only books or magazines but all types of content restrained in binders, spirals or files. Just flip the page and scan with the automatic page detection function.

Auto straighten & finger removal feature: Simply lay the book under the camera, open and hold down book edges with your fingertips. The page will be flattened while recognizing and cropping your fingers from the final result. Your file is perfectly straight and finger-free every time.

IRIScan Desk software also integrates a powerful OCR engine which converts scanned documents into searchable PDF and editable Texts, Word, Excel formats meaning you wont need to do long and boring retyping anymore!

Discover a new approach to the digitization of documents and books!

Key features

- Truly portable design: Lightweight and with a flexible arm design it makes it ideal for use in home/office or while traveling
- USB Powered Plug and play, no need for external power adapter.
- One click scanning: It just takes a few seconds to complete the scanning process.
- Self timer shooter: Automatically scan after setting the shooting interval time to 5 or
- 7 seconds. It's a real time saver for scanning larger volumes of files and documents.
- Automatic detection of documents: just place any document on the scanning mat and it will be automatically detected and cropped.
- Digitize Books in a blink and export to an Epub or .PDF format before reading them directly in your favorite electronic reader:
 - Auto page-turn detection sensor
 - Book curve image-flattening technology
 - Erase finger from image function
 - Front and back cover detection
- Exceptional Image Quality capture tiny details and the
- smallest text from any paper materials
- Advanced image processing
 - Automatic De-skewing and Cropping
 - Automatic edge filling of damaged document

Digitize all in a snap!

IRIScan[™] Desk 6 is a versatile document scanner and a support for distance learning sessions. Its innovative Artificial Intelligence (AI) technology like fingers removal, auto pageturn detection, curvature flattening for books, text to speech word by word, video capabili-ties along with its exclusive IRIS design shape make it the #1 reference of the scanner of A4/ letter size and pocket book on the market.

All books, magazines & paper documents up to A4/letter size can be scanned directly at speed down to less mere 1 sec/page without being tear or unbind. Even multiple small documents like receipts or parking tickets can be scanned at once thanks to its multiple cropping function.

IRIScan[™] Desk 6 is also the ideal tool for Dyslexic people thanks to the advanced Text To Speech feature that allows you to read and listen in parallel word by word any document!

IRIScan[™] Desk software also integrates the latest IRIS OCR engine with a powerful user interface which converts scanned documents into searchable PDF, image PDF, Text PDF, Text, Word, Excel, JPG format and even MP3 or WAV audio files! Listening to your document becomes an easy reality !

On top of, its lens of up to 12 MP extrapolated allows to create simple web tutorial, unboxing video or online demo at up to 15 FPS for a positive & efficient remote audience experience!

Discover a new approach to the digitization of documents, books and live demo video. Fully compliant with Zoom, Team, Skype or Google the IRIScan™ Desk 6 will improve your remote sessions and distance learning experience & comfort!

The IRIScan[™] Desk 6 comes also along with a free IRIS productivity software: Readiris PDF Reader (PC) offers you an indexed PDFs manager as from any file format in one place.

Key features

- · Ideal for use in home, office or while traveling: truly portable design USB powered
- Digitize any documents and pocket books up to A4/letter size thanks to Artificial Intelligence (AI) flatten curve technology! Then convert, edit and share content remotely!
- Powerful camera lens of up to 12MP along with built in mic to catch any details, create
- and record Youtube tutorial, unboxing video,... at up to 15FPS (video recording)
 Automatic documents detection. Multiple small documents (receipts, parking tickets,...) scan at once, just place them on the provided Scanpad. Gain time to submit your expense reports!
- · Self-timer shooter: Automatically scan after setting the shooting interval time. Ideal for scanning large volumes or binders without constraints.
- Create Epub or PDF format before listening or reading them directly in your favorite electronic reader. Get text to speech capability via MP3 or WAV audio files output format
- Text to Speech Technology (TTS) word by word read & listen to any document
- 1-Click scan: save as a compressed PDF or export to a Word file in just a snap.
- · High quality Video Recording function to record the progress of any operation or demo. Very convenient for recording web tutorials, unboxings, online demo, lesson explanations or live projections.
- Advanced image processing, contrast image settings & features
 - Auto page-turn detection sensor
 - Book curve image-flattening technology
 - Erase finger from image function
 - Front and back cover pocket book detection (148 x 210 mm / 5,83" x 8,27")
 - Automatic De-skewing and multi-Cropping
- Automatic edge filling of damaged document

Box Information

Box Size: (H x L x D) 13 x 38 x 15 cm / 5.1 x 14.96 x 5.9 in.

Box Weight: around 1,37 kg / 3.02 lbs

Box languages: Arabic, Dutch, English, French, German, Italian, Portuguese, Simplified Chinese, Spanish

Box content: Camera: Scanner, USB Cable, Scan Pad, Getting Started Guide

Scanner specifications

Scanning technology: 8.0-Megapixel CMOS Sensor - 12 MP extrapolated

Max resolution: 3264 x 2448 pixels

Max document size: 297 x 210 mm (A4) or 10.98 x 8.5 in (letter size)

Scanning speed: Less than 1 sec scan per A4/letter size in color mode

Lens fixed focus

Video Record Resolution: 2048 x 1536 (3 MP) / 1920 x 1080 (Full HD 1080) / 1600 x 1200 (UXGA) / 1280x960 (960P)

Built-in LED Lights 4 pcs

Output resolution 300 DPI

Output level Color / Black & White / Grayscale

Interface/drivers USB 2.0 Type B x 1 (For PC Connection)

USB 2.0 Type-A x 1 (For USB Extension)

Power supply 5V by USB powered

Output formats Document: JPG, PDF (Image), PDF (Searchable), PDF (Text), Word, Txt, Excel, EPUB (E-book), MP3, WAV.

Dimensions (H x L x D) Folded size: 321 x 120 x 90 mm / 12.6 x 4.72 x 3.54 ln.

Working size (H x L x D): 321 x 120 x 238 mm / 12.6 x 4.72 x 9.37 ln.

Weight 1,05 kg / 2.31 lbs

Daily scanning volume: up to 5000 pages

Minimum requirements

- Windows® 10 with Intel i3 or higher
- Mac[®] OS 10.15 and above with Intel chip or M1 chip
- Graphical Card: Intel[®] Standard Graphics or higher Graphics cards with 2 GB VRAM
- Ram memory: 4 GB
- Hard disk space: 2 GB
- One USB 2.0 or above
