FREEWAY SX 7.3 IPS

GPS is equipped with a capacitive touch panel. This means that the screen works by touching with your finger. The use of a touch panel significantly facilitates the use of navigation - you do not need to look for a stylus pen to enter the desired route. You work like on a smartphone.

CAR HOLDERS

MC-THC01

MODECOM MC-THC01 is a universal car holder made of the highest-quality materials for tablets with 7"-8" diagonal. The car holder may be attached to the windscreen or dashboard. Thanks to rotary mounting, you can set a perfect angle in order to obtain maximum visibility. It will let you use all the necessary functions while driving, e.g. GPS or music player.

10.2*19.2*15.6 cm

For tablets

Compatible devices 7"-8"

BASE MC-SHCW

MODECOM BASE MC-SHCW is a car holder for a car air-vent, which will allow you to mount your smartphone in an easy and convenient way. Thanks to the special mount, you can adjust the angle to achieve optimum visibility of the screen in attached device. This allows the most effective use of all the functions of a smartphone, such as GPS navigation while driving a car. Thanks to MODECOM BASE MC-SHCW you can conveniently use the functions of a smartphone, eg tracking the path on the display with the navigation function activated.

CAR ADAPTER

MC-KULL-03

The USB adapter MODECOM ROYAL MC-KULL-03 will quickly and efficiently charge the portable devices like iPhone, iPad and iPod. The compact size of adapter is equipped with a USB socket and a cable with lightning tip. The adapter has the technology of automatic selection of voltage and current to the connected device. Thanks to such solutions, mobile devices are charged in the most effective way.

Smart identify applicable voltage and current

Led light indication on the USB charger side
