Logic 600

- ATX/ATX12V version 2.2 V compatible
- Passive PFC
- 1 x universal 20/24-pin connector for motherboards, P4 connector
- 1 x PCI Express connector
- 4 x SATA, 2 molex, 1 FDD
- Automatic fan control (AFC)
- 12 cm fan
- Short circuit and over-voltage filters
- Silent operation
- Very low interference
- Operating temperature: 0°C to 50°C
- Storage temperature: -20°C to 70°C
- MTBF: >100000 hours at 80% load and 25°C temperature
- Safety certificate: CE
- RoHS
- Max. power: 600 W
- Hold up time: >16ms at full load and nominal voltage
- Rise time: <20ms at full load and nominal voltage
- Over-voltage protection: +3.3V, +5V, +12V
- Over-power protection: 140%
- Short circuit protection
- Power good signal, compatible with TTL
- - OLP - Over Load Protection
- - OCP - Over Current Protection
- - SCP - Short Circuit Protection

Logic 520

- Model 520W was equipped in Serial – ATA connectors (for hard drives) and universal 20/24 pin connector (for mainboards).
- One of the main advantages of this model are excellent cooling which is provided by 12 cm fan with chromium grill.
- In addition this unit is equipped with short circuit and over-power and over-voltage protection preventing from mainboard and CPU damages.
- Passive PFC
- 12 cm fan.
- 1 x universal 20/24 connector for mainboards.
- 4 x SATA
- 2 molex
- 1 FDD
- PS 4 – 1
- Max power: 520W
- Short circuit and over-voltage filters

Logic 500

- Power Supply equipped with 1x Serial-ATA (2X Serial ATA - LOGIC 500)
- power connector (for hard discs) and universal 20/24 pins main board connector in standard. Very important features of the power supply are its incredible cooling ensured by 12 cm chromium grill fan and a stable operation guaranteed by passive PFC function (adjustment of power factor). To prevent processor and main board damages the power supply is equipped with over voltage and short circuit filters.
- Complies with ATX/ATX12V Version 2.2
- 2x molex, 1x FDD, 3x SATA, 1x P4, 1x PCI E, 1x 20+4 pin
- Passive PFC
- Thermal Fan-speed Control (AFC)
- Dimension: 140(L)*150(W)*86(H)mm
- MTBF:>100K hours at 25°C & 80% load
- Efficiency: 70% at full load, nominal line
- - OLP – Over Load Protection
- - OCP - Over Current Protection
- - SCP - Short Circuit Protection

LM-2A

- LM-2A is one of the latest high-quality wireless optical mouse in Logic offer. In LM-2A construction users can find wireless interface, where nano receiver is hidden in the structure of the mouse. Above average comfort and precision provides used in the LM-2A sensitive optical sensor with a high resolution of 1200 dpi. This product is made from the highest quality materials, which allows pleasant and comfort using even for many hours. The mouse is powered by two AAA batteries. Available in black color.
- SPECIFICATIONS
- Length: 105.35mm, Width: 68 mm, Height: 39 mm
- Sensor: 1200 dpi
- USB Nano Receiver
- Compatibility: Windows, Linux, Mac OSX
- Color: black
- 2 x AAA battery
- Technology 2.4 Ghz
- Advanced optical system
- 3 buttons
- Comfortable design - for long term use
- Comfortable shape for better handling
- Working within 10 meters

LM-21

- Logic LM-21 is a wireless optical computer mouse. This product was designed especially for those user who appreciate comfort at work. Using of high-performance optical sensor (800/1200/2000 DPI) allowed us to create a very sensitive product that instantly responds to every move. It is using radio transmission for connecting to the PC within the 2.4GHz that allows for wireless work at a distance of up to 10m from the receiver. USB interface assures that the mouse can work with virtually any computer availably these days.
- SPECIFICATIONS
- Length 94 mm
- Wide 65 mm
- High 34 mm
- Technology: 2.4 GHz
- Sensor: 800/1200/2000 DPI
- Compatible: Windows, Linux, Mac OSX
- Power: 2 x AAA batteries

LC-STARR-TWO

tactile feeling

- Logic LK-12 is very convenient to use wired computer keyboards, characterized by a high level of ergonomics and solid construction. Its standard layout with a full numeric block makes from the Logic LK-12 easy and comfortable to use product. Moreover, many user of Logic LK-12 will appreciate used in keyboard construction "big" Enter key. This model also features a technologically advanced silent, soft key mechanism what guarantees the maximum comfort of use. An important advantage of the product is the extreme easiness to install it by using USB interface, just connect the keyboard to the USB port and after while the device is ready to work with computer. Logic LK-12 keyboard is available in six language lauout version: English, Hungarian, Russian, Bulgarian, French and Slovak
- Lenght: 435 mmk, Wide: 134 mm, High: 25 mm
- Number of keys: 104
- Interface: USB
- Hardware Requirements: +5V DC,@200mA
- Compatybility: Windows, Linux, Mac OSX
- Key features:
 - Ergonomic design,
 - separated numeric keypad,
 - USB Input,
 - quiet operation
 - available layout version: English, Hungarian, Russian, Bulgarian, French and Slovak

LKM-101W

- Logic Concept company introduces wireless computer set for most demanding users, which consist of two modern design products: high quality, ergonomic keyboard and optical wireless mouse. This wireless set allows for comfortable work with your computer even for long hours. An important features of LKM-101 set are high level of ergonomics and attractive design. Both keyboard and mouse use the same Nano type receiver (2,4 GHz), hence only one USB port is used for working with two devices.
- An important element of the LKM-101 wireless set is a high-quality optical mouse, which allows user to work in two resolution (800 or 1600 DPI). User can easily switch between the two modes thanks to the convenient switch located on top of the mouse. Keyboard used in LKM-101 set has a streamlined shape which allows users for long, comfortable work.
- Dimension: Keyboard: 430 mm X 172 mm X 22 mm; Mouse: 103 mm X 69 mm X 36 mm.
- Nano receiver
- Wireless technology: 2,4 GHz
- Interface: USB
- Netto set weight: 550±15 g
